

# DELICATE FINEART PAPERS

## mediaJET<sup>®</sup> Museum Rag Textured | Lightly textured fine-art cotton paper

#### Product description

The Museum Rag Textured is a natural white fine-art paper with a slightly structured watercolour surface made of 100% cotton, acid-free, with hardly any optical brighteners. The very beautiful, unobtrusive yet full-of character surface is ideal for art prints and reproductions of lithographs with a high DMax and large colour gamut. It is an ideal complement to the strikingly structured Museum Watercolor.

### Specific feature

This new fine-art paper is characterized by a unobtrusive, yet full of character present paper surface and is made of 100% cotton. The soft, light white texture surface serves as the basis for valuable editions and original prints. With the special coating with hardly any optical brighteners, the paper achieves harmonious high colour intensity, highest D-Max values and an exact image sharpness with pigmented as well as with dye-based inks and with most printing systems. Areas of application for this very beautiful fine-art paper are the high quality reproductions, photo editions, original digital art prints, artist portfolios and much more. mediaJET Museum Rag Textured is acid free and offers excellent archival qualities.

#### Processing

Toobnical croaification

To guarantee optimal quality, photo and fine art papers should be stored and processed in a climate with 30-70% relative humidity and at temperatures from 15-30°C. We recommend that the paper be acclimatised in the print room for one day before printing, and to reseal in the original package after printing. Prevent fingerprints on the coated side by wearing clean cotton gloves while processing. Please avoid contact with solvent, glue and softener, leads to yellowing.

Material:	Paper	Colour L:	97,8
Application Area:	only indoor	Colour a:	1,9
Surface:	Matt	Colour b:	-4,3
Specific gravity:	310,00g/m²	Whiteness (R457):	99 (D65/2°/460NM
Thickness:	550,00µm	Opacity:	>98%
Water resistant:	yes	PH Value:	8
Cold lamination:	yes	Optical brighteners:	small amount
Heat lamination:	yes	Cellulose:	100% Cotton
		DIN ISO 9706 archive-resistant:	yes
