

## mediaJET® Museum White Smooth | High white matt cotton paper

---

### Product description

Museum White Smooth is the slightly lighter addition to Museum Natural Smooth, also made of 100% cotton, with a soft surface and subtle paper texture. Low optical brighteners, acid-free and therefore ideal for long-lasting photo and fine-art reproductions. Ideal for black/white prints as the white tones are more natural and neutral due to the white paper. For premium prints with extremely high D-Max value on genuine cotton paper.

### Specific feature

mediaJET Museum White Smooth is the ideal complement to the natural white hot press papers. It is characterized by an extremely velvety feel, and is made of 100%  $\alpha$ -cellulose. The paper is ideal for black and white photo applications as well as high quality colour intensive FineArt prints. Due to the optimized ink jet coating, a large colour gamut, high contrast and colour density can be achieved with pigment and dye inks and with most printing systems. mediaJET Museum White Smooth was designed especially for photographers printing black and white photos, who demand a high-quality surface. The bright white PhotoArt paper is acid and lignin-free, ideal for long-term archivability.

### Processing

To guarantee optimal quality, photo and fine art papers should be stored and processed in a climate with 30-70% relative humidity and at temperatures from 15-30°C. We recommend that the paper be acclimatised in the print room for one day before printing, and to reseal in the original package after printing. Prevent fingerprints on the coated side by wearing clean cotton gloves while processing. Please avoid contact with solvent, glue and softener, leads to yellowing.

---

### Technical specification

---

Material:	Paper	Colour L:	98,85
Application Area:	only indoor	Colour a:	1,85
Surface:	Matt	Colour b:	-5,25
Specific gravity:	300,00g/m <sup>2</sup>	Whiteness (R457):	104% ISO 11475 D65 2
Thickness:	490,00µm	Opacity:	>99% ISO 2174
B1-cert.::	no	Optical brighteners:	yes
Cold lamination:	yes	Cellulose:	100% cotton
		DIN ISO 9706 archive-resistant:	yes
