

mediaJET® PGC 200FD “bright white” | Glossy photo paper FastDry

Product description

Pure white photo paper with a high-gloss, microporous ink receiving layer. For multifaceted photo shoots, poster and advertising prints with brilliant colours, high image sharpness and rich black. Fast drying paper surface for consistently good and reliable print production.

Specific feature

Universally applicable, ultra white photo paper with a high-glossy surface. Colour pictures are reproduced in a nearly photo-realistic way with high colour fidelity, lively and detailed reproduction. The prints are immediately dry, water-repellent and smear-resistant. Due to the special micro-porous colour receiving coat the ink is fixed with absolute sharpness of outline showing printing results of impressing quality. mediaJET PGC 200FD “bright white” is universally applicable with pigmented ink as well as dye-based ink on a number of highest resolution Piezo- and BubbleJet Large Format Printers. It is particularly suitable for prints where besides of great detail fidelity and sharp outlines full colours should stress the photo-realistic reproduction. Due to the PE-coating on both sides the paper has an extremely high dimensional stability. The glossy mediaJET PGC 200FD “bright white” with high resolution is suited for hot and cold lamination.

Processing

To guarantee optimal quality, photo and fine art papers should be stored and processed in a climate with 30-70% relative humidity and at temperatures from 15-30°C. We recommend that the paper be acclimatised in the print room for one day before printing, and to reseal in the original package after printing. Prevent fingerprints on the coated side by wearing clean cotton gloves while processing. Please avoid contact with solvent, glue and softener, leads to yellowing.

Technical specification

Material:	Paper	Colour L:	96,0
Application Area:	only indoor	Colour a:	0,95
Surface:	gloss	Colour b:	-8,0
Specific gravity:	200,00g/m ²	Whiteness (R457):	>138
Thickness:	202,00µm	Specular gloss:	50%
B1-cert.:	no	Opacity:	>90%
Cold lamination:	yes		
Heat lamination:	yes	DIN ISO 16245:	no
